General Guidelines

Buyers to encourage Suppliers to ship consolidated shipments for POs as much as possible to optimize Freight.

Suppliers & Shipping Teams should start populating Shipper Reference field when booking shipments with De Havilland PO / De Havilland Customer Order reference

Suppliers to use Parcel Shipment method by default for Shipping. If there are any challenges from the Suppliers on Shipping setup for Parcel Shipment method, please reach out to Global Logistics Team.

Suppliers to start using Declared Value field when Booking Shipments on De Havilland accounts. Cargo Insurance is Setup with DHL and Quantum, however FedEx still needs Declared value to be provided.

If you have any questions, concerns or special Shipping requirements, please reach out to Global Logistics team : Syed Hussain, Vikas Kohli, Valbona Uqmalli, Mark Dsouza : Escalation : David McCre
