

DE HAVILLAND CANADAIR 515

THE DE HAVILLAND CANADAIR 515 is a new production amphibious firefighting aircraft developed by De Havilland Canada. Building on the exceptional operational capability of the CL-415, this next generation aircraft offers significant benefits to operators, including design changes that incorporate new materials, and corrosion protection to reduce maintenance costs. For today's and future navigational standards, it offers a complete upgrade of the flight deck with an advanced avionics suite, delivering world class reliability, enhanced safety, and unrivaled situational awareness.

Backed by De Havilland Canada's global support network, the DHC-515 is ready for firefighting duty in every corner of the world.
